Anna University, Chennai- 600025  
CS23401 – Database Management Systems (R 2023)  
Jan – May 2025  
Year/Sem/Batch: II/IV/N

27-Jan - 2025

Week: 4

Course Instructor: M.S.Karthika Devi,  
Asst. Prof (Sr. Gr.), DCSE

### Spot Exercises on DDL Commands

#### Exercises

1. Create a table called account with the attributes account number, branch name, and balance number in which the account number of 14 digits is the primary key.
2. Define integrity constraint to ensure the account balance is not zero with a check clause.
3. Ensure the constraint primary key is not null.
4. Alter the table account with one more attribute acc-type
5. Insert at least 10 tuples into the table.
6. Find all the accounts having a balance of more than 10,000
7. Find all accounts belonging to a particular branch.
8. Delete all tuples from an account and retain the schema
9. Delete the schema.
