Java Lab – N Batch

Spot Question

Date : 22.07.2026

Add a Member class and track which Member object (not just a name/ID) currently holds each book.

- Add a due date(class Date) to issue() and a method that lists all overdue books.

Class Member with members : name(String), memberID(int), memberType(String) indicating faculty/student

Functions : constructor, toString

Class Date with members day (int), month(int), year(int) with constructor and tostring
