ANNA UNIVERSITY, GUINDY, CHENNAI:: 600 025
DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING
CS23403-FULL STACK TECHNOLOGIES LAB

CONTINUOUS ASSESSMENT -1 LAB EXAMINATION

Date:19.03.2025   **Batch :N**

Faculty Name : Dr.P.MOHAMED FATHIMAL

1.Create an HTML page using Express Server that fetches the student's name, password, and photo.The server must upload the photo and preserve the student data (student name, password, and uploaded file path) in the JSON object array.
For example, {'name: Adam','password: 'passw' image:\f1.jpg'}
Include CRUD student details (Create, Read, Update, and Delete)options for authenticated user (depending on student name and password). Finally, show the total number of student records available in the array.

Marks:CRUD -8Marks ,Display Total No.of Students:2 Marks
