CS6101 – Programming in C

Semester: I   Batch: 'Q'

Test 2

Max. Marks:10   Duration: 30 minutes

Note: Use functions parameters and return statements wherever possible

1. Write a C program to find the least common multiple of two integers.

2. Write a menu driven C program to find the cumulative sum of an array of real numbers and store it in another array. The program should terminate only when the option is exit.
